GRIT PRESS, WILLIAMSPORT, PA.

**WE** TAKE PLEASURE in presenting our 1921 Catalog illustrating our new patterns of Chamber Suits, Sideboards, Chiffoniers, Dressers and Buffets.

You will find our work well made and finished, the result of over fifty-two years' experience in the making of Furniture, and are confident it will give you and your customers the best of satisfaction.

While a number of illustrations in this Catalog show the piece of furniture as having a beveled mirror, please note that all pieces will be shipped with plain polished plate mirrors instead of beveled mirrors as illustrated.

Our case work is made with solid posts.

We will sell any part of a suit, and for prices of separate pieces see price list.

Pieces described as Mahogany are made as follows: Top of base, drawer fronts, and end panels are veneered with genuine Mahogany. The toilet, rails and posts are made of Birch and Maple. Our Mahogany work is finished a rich Mahogany color—the popular shade. We are finishing some pieces Brown Mahogany. Our Brown Mahogany finish is the standard shade.

We are making a variety of patterns in the "American Quartered Oak" finish. This finish is a reproduction of Quartered Oak, printed with the roller process, on Oak, finished in our regular Golden Oak color.

Pieces described as dull or polish finish will be shipped polish finish unless finish is specified on order.

Trimmings—wood knobs or brass pulls as desired. All pieces fitted with ball-bearing casters.

We desire to express our appreciation of the favor with which our goods have been received, and trust that the liberal patronage extended to us in the past may be continued.

## TRANSPORTATION

### NOTICE OF DAMAGE TO BE GIVEN RAILROADS

Attention is called to the importance of a careful examination of goods before taking them from the possession of the railroad company. In cases of damage, the fact should be noted on the receipt given to the railroad for the freight, and the railroad should be requested to make notation of the damage on the expense bill, or to sign an exception sheet setting forth the damage. If the damage is discovered after having given the receipt and before taking property from the possession of the railroad, drayman should insist upon endorsing record of the damage on his receipt; and if not permitted to do so, should report facts to the consignee, who should then give written notice of the damage to the railroad agent.

### CONCEALED LOSS AND DAMAGE

In very many cases the damaged condition of goods cannot be discovered until cases are opened in consignee's warehouse. In such instances, immediate notice should be given to the railroad agent and he should be requested to send someone to inspect the goods. Should the railroad agent refuse to send an inspector, consignee should then promptly advise him in writing as to the nature and extent of the damage, notify him that claim will be presented for same and at the same time have the damaged condition of shipment certified to by a witness.

Our shipments are carefully inspected and leave our factory in good condition and our responsibility ceases upon delivery to the railroad company in good order; but if the above conditions are complied with our Traffic Department will lend every possible assistance to effect a prompt and satisfactory settlement.

A. H. HEILMAN & CO.
